**HAPPY NEW YEAR...KUNG HAY FAT CHOY...HAPPY VALENTINE'S DAY
HAPPY EASTER...HAPPY FOURTH OF JULY**

Hello,

I am so happy to have time to sit down and write this news letter. The beginning of the year started off very busy and I never got my letter out to all of you.

We are proud to say we took another great group to celebrate the Year of the Monkey in Hong Kong. Our group had a great time sightseeing and shopping along with bringing in the New Year with the first evening parade and attending a banquet the following night with the spectacular fireworks display on Hong Kong's harbor. Our trip for the 2005 is posted on the web site at www.gottago.com along with some colorful pictures from this year's event so please take a look and give us a call saying you would like to join us this year. I can promise you fun and great food!!

This year I journeyed to Taiwan and Vietnam, a unique combination for a trip. I enjoyed the trip so much I am marketing a trip to both locations. We have many ways of packaging this and it is so great to experience the two cultures and the beautiful sightseeing that is available in both countries. Once again you may browse the web for information on site seeing in these two areas.

For your travel enjoyment, we have our usual low consolidator flights into **Asia, Europe, Australia, and New Zealand**, along with the ability to book the flights and attractions in these countries. This year there are the new markets where we will be able to arrange for discounted business class tickets. Additionally, we have a new area for discounted flights and accommodations: we are now able to put packages together for air and hotels for traveling within the **United States**. Our packages will continue to include **China, Australia, New Zealand, Mexico** and **Hawaii** as well as our bookings of **Cruises** and **Club Meds** anywhere in the world. Don't forget that car rentals and the rail passes are also done in this office.

The major change in this year's travel is that people have gone back to planning a vacation in advance. This is great! Clients that have waited until the last minute met with disappointment that we had no seats to sell them. Some were able to find other travel dates for us to work with and others found they needed to cancel vacation plans altogether. Whatever direction you plan to travel let us start planning the holiday and early 2005 bookings now to avoid any disappointments.

Because my business is now primarily based on referrals and the web, please recommend me to any family or friends who may be in need of a vacation. As always, I promise to offer them the same high level of service that I provided for you.

Please call (415) 459-5921 or email pwelsh@gottago.com.

Looking forward to hearing from you.
