PdK Consulting focuses on **Workplace** performance optimization and on measuring the resulting performance improvements.

Using the "**Balanced Scorecard**", PdK identifies work group performance variables and establishes baseline performance measures. PdK develops a Workplace Strategy and a detailed Action Map with accountabilities and schedules aimed at:

- ◆ Implementing strategies and tactics for high performance workplaces
- ◆ Developing processes for continuing improvements
- ◆ Deploying knowledge supporting technologies
- ◆ Enabling behavior changes increasing performance

PdK measures the resulting **performance improvements** (business results) on a simple linear scale via multi-variate statistical or simple heuristic models.
